Lug Express

Fast delivery on custom, made-to-order Color-Keyed® lugs

Color-Keyed®

Lug Express
350+ made-to-order Color-Keyed® lugs — ready to ship in 5 days or less!

Need lugs in a hurry? Meet the new Lug Express program from ABB Installation Products.

Global supply chain issues and delays with raw materials have made it tough to get what you need when you need it — particularly if what you need isn't a standard, "off-the-shelf," stocked product. Long lead times can cost businesses staggering sums in downtime.

That's why ABB Installation Products has established the Lug Express program — so you can get customized, made-to-order (MTO) lugs in quantities of 25 to 200 ready to ship in just five business days.

Other manufacturers may be moving away from small quantity orders for MTO lugs, but ABB Installation Products has your back with high-quality Color-Keyed lugs built stateside in our Ormond Beach, Florida manufacturing facility.
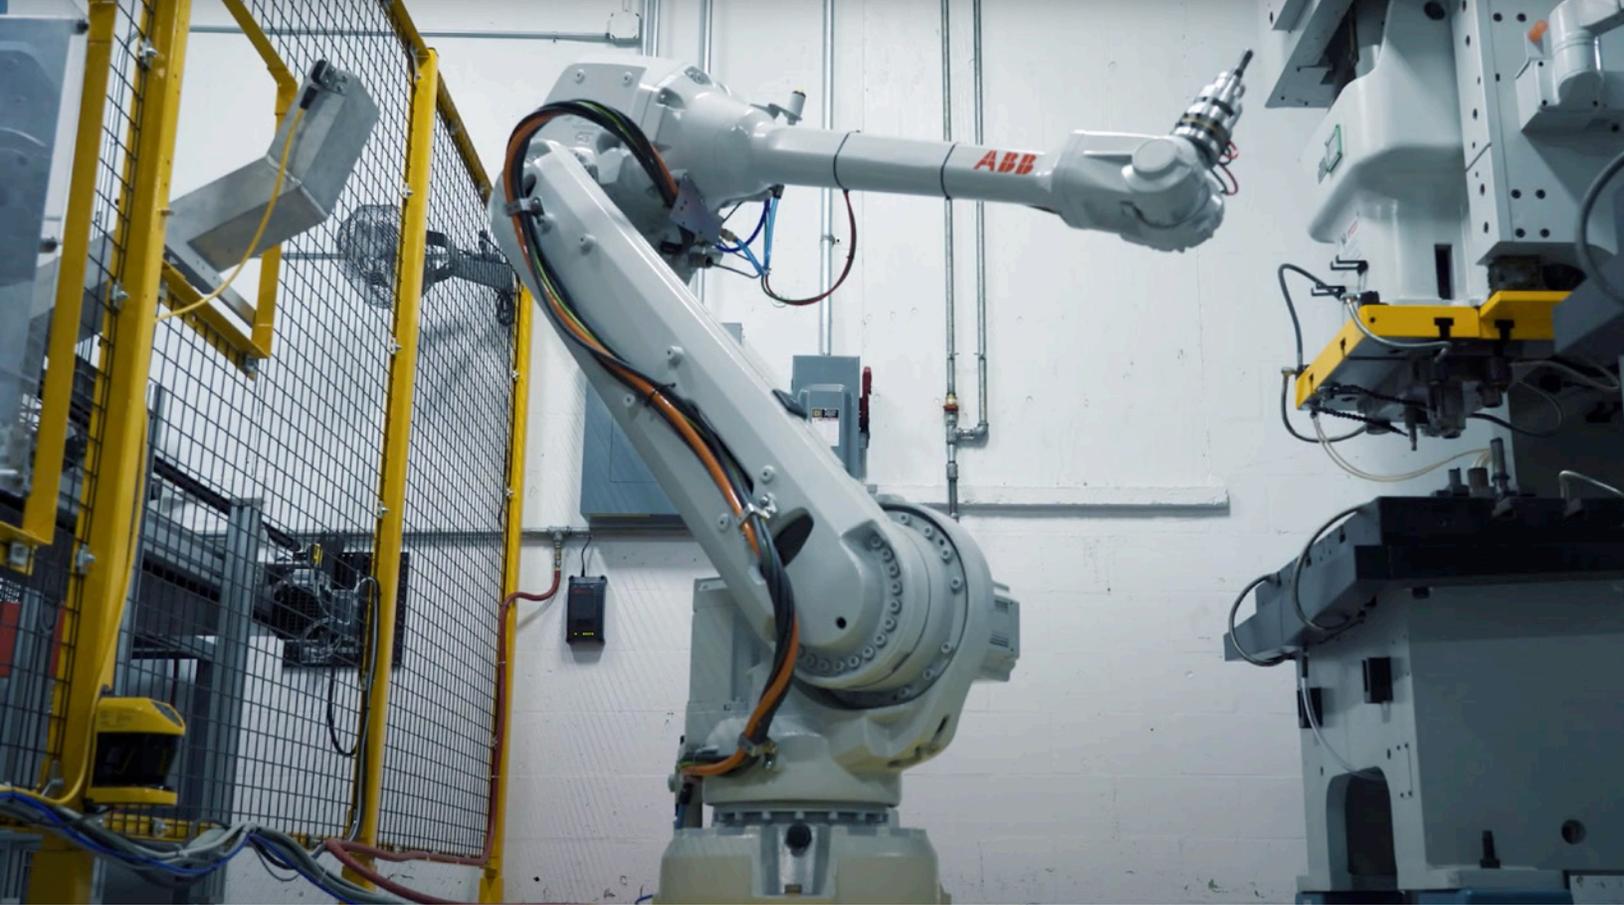

Lug Express lug options
- Copper or aluminum
- #1 AWG–750 kcmil
- Single or double hole for bolt size #8–1"
- Any functional hole spacing for two-hole lugs
- Long or short barrel
- Standard or narrow tongue
- Bend configurations (15°, 30°, 45°, 60° or 90)
- Belled ends
- Tin plated

MADE IN THE USA
ORMOND BEACH
FLORIDA

Get your equipment that requires unique terminations **up and running fast** with Lug Express.
